

Director of Publications Report

74th Midyear Technical Conference

Engineering Design Graphics Division – ASEE

November 17-19, 2019

Norfolk, VA

Since the Annual Conference in June, we have begun the publication of Volume 83 of the Journal and currently have one article published and one in copyediting. We have recruited several new members to our Review Board and the website has been updated with their names.

In the attached document are the numbers for institutional and individual subscriptions, and the financial report.

My thanks to Dan Kelly for keeping on track with the reviews, Bob Chin for his advice and technical assistance, and Judy Birchman for her design and copyediting work.

Respectfully Submitted

11/8/19
