

## Director of Publications Report

### 127<sup>th</sup> Annual Conference

Engineering Design Graphics Division – ASEE

June 22-26, 2020

Virtual Conference

Since the Midyear Meeting, we have completed the publication of Volume 83 of the Journal with a total of six articles. We have also switched to an updated version of OJS, so when you go to the Journal site you may notice some changes, especially in appearance. Some bugs are still being worked out behind the scenes but overall the transition has been a success. Special thanks to Bob Chin and the technical support I have received from the staff at ECU during this transition.

At the time of submitting this document, I am still awaiting some feedback from our review board to obtain their input on the selection of the Editor's Award. The award will be announced at a later date.

In the attached document are the numbers for institutional and individual subscriptions, and the financial report. Due to not being allowed on campus to pick up mail, the financial totals are not quite up to date.

My thanks to Dan Kelly for keeping on track with the reviews and Judy Birchman for her design and copyediting work.

Respectfully Submitted
